

VITAL WET

NP 5-4-0 solution for fertigation

VITAL WET is a fertilizer that contains Nitrogen and Phosphorus and it is applied via foliar application. **VITAL WET** has been especially designed for crops that require Phosphorus while planted in soils rich in Potassium. The Nitrogen and the Phosphorus are 100% assimilable by the plants.

Dose and instructions for use:

Only use **VITAL WET** for foliar application by diluting 100cc/100 liters of water (0,1%) and spraying it over the aboveground parts of the plant. If in doubt, use enough mixture to wet the aboveground parts of the plant.
