

VITAL POWER

NK 5,3-0-10 with seaweed extract and molybdenum

VITAL POWER contains seaweed extract with Nitrogen, Potassium and Molybdenum. Its use increases the growth of the plants and the quality, production, and homogeneity of the fruits. Also, the seaweed, which is packed with Cytokinins, Auxins, and Gibberellins, go through a preservation process that maintains the nutrients and increases their absorption by the plant.

Dose and instructions for use:

Drip irrigation: For horticultural crops, use 2-5L/ha in 2-3 applications. For grapevines, citrus, and fruit trees, use 5-8 L/ha in 3-4 applications.

Foliar application: It is diluted in 300-300cc/hl and sprayed over plant's aerial parts.

Application season

Olive-trees: it is recommended to treat it at the beginning of the bud formation and blooming.

Horticultural products: apply two or more applications at intervals of 20-30 days.

Citrus and fruit trees in general: first application when the petals fall down followed by two more at intervals of 20-30 days.

Potatoes, melons, watermelons and strawberries: first treatments must be carried out when the plant reaches 15cm, followed by two more at intervals of 20-30 days.

Forage: apply when the first leaves appear and re-apply every 20-30 days.

GUARANTEED ANALYSIS

Extract of Algae	15% w/w
Total Nitrogen (N)	5,3% w/w
Ureic Nitrogen (N)	5,3% w/w
Potassium oxide (K ₂ O) soluble in water	10% w/w
Molybdenum (Mo) soluble in water	0,2% w/w
